

SYED IBRAHIM BADHUSHA M

Java Full Stack Developer • DevOps • React.js

Thoothukudi | +91 7639014820 | badhusha334@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

B.E. Computer Science graduate (2026) with hands-on experience in Full Stack Java, React.js, and RESTful API development using Spring Boot, Spring Security, Spring Data JPA, and MySQL. Actively building DevOps skills including CI/CD pipelines, Docker containerization, and cloud platforms (AWS/Azure/GCP). Proven ability to deliver scalable, end-to-end web applications and collaborate effectively with cross-functional teams to troubleshoot and ship high-quality software.

TECHNICAL SKILLS

Languages	Java (Core Java, OOP), JavaScript, SQL
Backend	Spring Boot, Spring Data JPA, Spring Security, RESTful API Design, MVC Architecture, Microservices Concepts
Frontend	React.js, React Hooks, HTML5, CSS3, Bootstrap, Thymeleaf, JavaScript
Database	MySQL – Schema Design, CRUD Operations, JPA Integration
DevOps	Git, GitHub, Maven, CI/CD (Concepts), Docker (Learning), Infrastructure as Code (Learning), Postman
Cloud	AWS, Azure, Google Cloud Platform (Fundamentals – Learning)
Practices	SDLC, Agile, Code Review, Controller-Service-Repository Pattern, Problem Solving, Troubleshooting

PROFESSIONAL EXPERIENCE

Java Full Stack Developer — [BDreamz Global Solutions, Chennai](#)

Nov 2025 – Present

- Design and develop RESTful APIs using Spring Boot (Controller-Service-Repository pattern); manage codebase via Git/GitHub following CI/CD-ready version control workflows.
- Build dynamic React.js frontends with React Hooks; integrate seamlessly with Spring Boot backend through JSON-based API calls for full stack data flow.
- Implement role-based authentication and authorization (RBAC) using Spring Security; collaborate with cross-functional teams on feature design, code reviews, and issue troubleshooting following SDLC best practices.

Web Development Intern — [Astro Web Solution, Madurai](#)

Jul 2025 – Aug 2025

- Built responsive frontend interfaces using React.js; contributed to Java backend logic and MySQL database operations in live internal projects.
- Participated in SDLC-based workflows and code review practices; provided technical support and advised on web development best practices to improve project delivery outcomes.
- Oversaw hardware setups and conducted software troubleshooting to enhance overall operational efficiency.

PROJECTS

Food Ordering Application – Full Stack | [Spring Boot](#) · [React.js](#) · [Spring Security](#) · [Spring Data JPA](#) · [MySQL](#)

- Developed a feature-rich full-stack food ordering platform with a comprehensive admin panel supporting complete product inventory management (add, edit, delete, view — full CRUD functionality).
- Implemented role-based authentication and authorization using Spring Security, restricting admin operations by user role for secure and controlled access.
- Integrated React.js frontend (with React Hooks for state management) with Spring Boot backend via JSON-based RESTful API calls; persisted all data using MySQL with Spring Data JPA (Controller-Service-Repository architecture).

E-Commerce Admin Panel | [Spring Boot](#) · [Thymeleaf](#) · [Spring Security](#) · [Spring Data JPA](#) · [MySQL](#)

- Built a server-side rendered e-commerce admin UI using Thymeleaf templates, enabling dynamic product, category, and order management without a separate frontend framework.
- Implemented complete CRUD operations across all admin modules; validated every API endpoint using Postman; applied Spring Security for admin authentication; structured code using Controller-Service-Repository pattern for clean, maintainable, and scalable architecture.

Bookstore Management System – REST API | [Spring Boot](#) · [Spring Data JPA](#) · [MySQL](#)

- Designed and developed REST APIs for managing books, customers, and orders with JSON request-response handling; implemented full CRUD operations and validated all endpoints via Postman.
- Integrated MySQL using Spring Data JPA with relational schema design; applied layered Controller-Service-Repository architecture for scalability and readability.

EDUCATION

B.E. Computer Science and Engineering
Mohamed Sathak Engineering College, Ramanathapuram

CGPA : 7.81%

2022 – 2026

HSC
St. Francis Xavier's Hr. Sec. School, Thoothukudi

HSC : 70%

2022

SSLC
St. Francis Xavier's Hr. Sec. School, Thoothukudi

SSLC : 84%

2020

ONGOING LEARNING

Docker & CI/CD pipeline fundamentals · AWS Cloud Practitioner essentials · DevOps best practices · Infrastructure as Code (IaC) · Open to certifications in DevOps, React.js, or Java technologies.
